

Alice Johnson

Software Engineer | DevOps | AI & Cybersecurity Enthusiast

Email: alice.johnson@example.com

Phone: +1 (555) 123-4567

Location: San Francisco, CA

Profile Summary

Alice is a mid-level Software Engineer with 2-3 years of experience, specializing in DevOps practices and cloud infrastructure. She has solid development skills and a growing interest in Artificial Intelligence and Cybersecurity. Alice is passionate about automation, building scalable systems, and exploring innovative solutions at the intersection of software engineering and security.

Skills

DevOps	CI/CD, Docker, Kubernetes, Jenkins, Terraform, AWS
Development	Python, JavaScript, Bash scripting, Git
AI & Cybersecurity	Machine Learning basics, Security best practices, Vulnerability assessment
Other	Agile/Scrum, Problem-solving, Collaboration

Professional Experience

Software Engineer | XYZ Tech Solutions (2022 – Present)

- Designed and maintained CI/CD pipelines for cloud-based applications.
- Implemented monitoring and logging solutions using Prometheus and Grafana.
- Worked with Kubernetes and Docker for container orchestration.
- Collaborated with developers to improve software reliability and performance.

DevOps Engineer Intern | CloudNet Inc. (2021 – 2022)

- Assisted in migrating infrastructure to AWS.
- Automated deployment workflows using Jenkins and Terraform.
- Gained exposure to security practices in cloud environments.

Education

Bachelor of Science in Computer Science

University of California, Berkeley (2017 – 2021)

Interests

Artificial Intelligence, Cybersecurity, Cloud Computing, Open Source Projects, Tech Blogging
